PROFESSIONAL PROFILE

Resilient, engaging and values-driven Clinical Leader with a proven track record of strengthening organisational capability and delivering community-focused health programs across complex healthcare environments. Passionate about improving outcomes for the communities I serve, I am well versed in bridging the gap between clinical and non-clinical teams and enabling more connected, safe and effective service delivery. Showcasing a practical, people-first approach to leadership, I enjoy empowering teams, building capability and supporting others to operate confidently within scope while maintaining a strong focus on clinical governance, risk management and quality care. Deeply committed to person-centred practice, I am excited by the opportunity to leverage digital health platforms to expand access, enhance quality and create more sustainable models of care. Known for my inclusive and authentic leadership style, I build trust, bring people on the journey and foster cultures of accountability and continuous improvement, ultimately enabling better outcomes for patients, teams and the broader community.

EXPERIENCE

HEAD OF CLINICAL CARE - SYMBOL GROUP

2026 - Present

Appointed to a foundational clinical leadership role with Symbol, a new entrant to the home support services sector within the aged care industry. Responsible for supporting the development of safe, compliant and clinically governed service delivery through the operationalisation of core frameworks, policies, procedures and escalation pathways aligned to contemporary aged care requirements.

- **Foundational Clinical Governance** Operationalised core clinical governance structures, including Symbol's Clinical Governance Framework, to support safe, consistent and accountable service delivery as the organisation establishes its aged care services.
- **Risk Management & Operational Readiness** Operationalised the Risk Management Policy and developed practical standard operating procedures to support risk identification, escalation and management within home support service delivery.
- **Incident Management System Development** Operationalised the Incident Management Policy and developed Symbol's incident management system, including associated training to support staff understanding, reporting consistency and appropriate escalation.
- **Policy, Procedure & Framework Implementation** Translated core governance and risk requirements into practical operational processes, supporting the organisation to move from policy development into safe and structured implementation.
- **Escalation Pathways & Clinical Oversight** Developed escalation procedures to support timely clinical decision-making, risk response and appropriate management of concerns within a community-based aged care service environment.
- **Aged Care Regulatory Knowledge** Applied a contemporary working knowledge of the Aged Care Act 2024, Aged Care Rules 2025 and strengthened Aged Care Quality Standards to support the development of compliant and person-centred clinical systems.

**4-YEAR DIPLOMA OF NURSING
(GENERAL, PSYCHIATRIC &
COMMUNITY) and MIDWIFERY**
Kwa-Zulu Natal College of Nursing,
Addington Campus

EXPERIENCE - CONTINUED -

INDEPENDENT CONSULTANT

2024 – 2026

After finalising my Master of Business Administration, I established and delivered a boutique consulting model focused on strengthening clinical capability, supporting leadership development and improving community-based care outcomes through practical, values-driven solutions.

- **Clinical Capability & Risk Management** – Provide clinical consulting support across community services, including the review and application of clinical incident registers, identification of systemic risks and implementation of practical strategies to strengthen safety, governance and quality of care.
- **Leadership Coaching & Development** – Designed and delivered tailored coaching programs for emerging clinical leaders, building foundational leadership capability, accountability frameworks and clear performance outcomes to support sustainable service delivery.
- **Bridging Clinical & Non-Clinical Practice** – Partner closely with non-clinical teams to provide clinical guidance, ensuring safe practice within scope, strengthening understanding of care requirements and supporting confident decision-making in community settings.
- **Education & Workforce Uplift** – Deliver targeted education to community-based staff on areas including medication management, pressure care, incident response and escalation pathways, improving confidence, capability and client outcomes.
- **Stakeholder Engagement & Service Support** – Contributed to multidisciplinary team discussions, providing clinical insight and constructive feedback to enhance service delivery, strengthen team alignment and support positive outcomes for clients and their families.
- **Service Design & Continuous Improvement** – Support the development of structured coaching frameworks and service improvement initiatives, incorporating clear objectives, measurable outcomes and sustainable approaches to leadership and clinical practice.

CLINICAL SERVICE DELIVERY LEAD – CARE COMPLETE

Amplar Health / Medibank / 2021 – 2024

Initially engaged as the Acting Clinical Service Delivery Lead, I transitioned into the permanent role, leading national community and telehealth-based programs and delivering service improvements across clinical governance, operations and patient outcomes.

- **Return to Work SA – Post-Surgical Support Program** – Successfully transformed an underperforming program supporting injured workers post-surgery by rebuilding the clinical structure, standardising documentation and strengthening governance which increased referrals from 3–4 to ~35 per month and restored confidence with key stakeholders including RTWSA and insurers.
- **HBF Health Navigator – Chronic Disease Care Coordination Pilot** – Led a national care coordination program focused on reducing avoidable hospital admissions for at-risk clients. Worked closely with clinicians and external stakeholders to monitor outcomes, validate reporting data and support continuous improvement of the pilot model.
- **Traffic Accident Commission (TAC) Victoria Pilot** – Oversaw delivery of a complex injury recovery pilot, providing clinical leadership and day-to-day support to clinicians working in a high-risk environment and maintained strong stakeholder engagement through regular reporting and review of client outcomes and program performance.
- **Heart Health at Home – Digital Cardiac Rehabilitation Program** – Led a national digital health program supporting Phase 2 cardiac rehabilitation patients through hybrid telehealth delivery. Strengthened referral pathways, improved clinical workflows and secured additional clinical and administrative capacity to support safe and scalable delivery.

CLINICAL SERVICE DELIVERY LEAD – CARE COMPLETE

Amplar Health / Medibank / 2021 – 2024

Continued:

- **Workforce Leadership & Capability Development** – Role modelled an inclusive and engaging leadership style while managing a geographically dispersed team of 26 clinicians, implemented structured onboarding, mentoring and development pathways and improved engagement, retention and internal career progression.
- **Operational & Stakeholder Management** – Managed program performance against contractual KPIs, working closely with funders, insurers and internal stakeholders to deliver sustainable, high-quality services and maintained an organisation-wide focus on improving community outcomes.
- **Subject Matter Expertise** – Excelled as a clinical SME in cross-functional strategic working groups and contributed to service design, clinical framework development and technology-enabled care initiatives, including collaboration on digital health platforms and system improvement projects.

SENIOR CLINICAL CARE COORDINATOR – CARE COMPLETE

Medibank / 2015 – 2021

With over 5 years' experience as a Clinical Care Coordinator, I shifted into a more senior role while delivering end-to-end clinical care coordination across national community-based and telehealth programs, with a strong focus on early intervention and patient-centred care.

- **High-Impact Clinical Care Coordination & Risk Stratification** – Provided comprehensive clinical and psychosocial assessments for complex community-based clients, identifying escalation risks and applying stepped-care principles to proactively reduce hospitalisation risk and improve continuity of care across multidisciplinary pathways.
- **CarePoint Pilot (Department of Health)** – Supported the delivery of a chronic disease prevention pilot using a hybrid community and telehealth model, working directly with patients to identify risk factors, coordinate supports and reduce hospitalisation risk through early intervention and coaching.
- **CareFirst – Preventative Health Coaching Program** – Delivered structured health coaching to support early intervention and reduce progression of chronic conditions, with a focus on maintaining clinical documentation quality and safe, consistent community-based care delivery.
- **Clinical Coaching, Capability Uplift & Team Support** – Provided clinical guidance, informal coaching and capability support to care coordination colleagues, strengthening consistency in assessment quality, escalation decision-making and confidence in managing complex client presentations.
- **Stakeholder Engagement & Integrated Care Delivery** – Collaborated with internal clinical teams, external health providers and community services to ensure clients were appropriately supported across the care continuum, improving access, continuity and adherence to care plans.
- **Clinical Documentation, Governance & Quality Assurance** – Maintained high-quality clinical records aligned to organisational and regulatory requirements, and contributed to continuous improvement of documentation practices, audit readiness and service consistency.
- **Clinical Audit & Compliance Support** – Acted as a clinical auditor, supporting quality assurance processes and ensuring adherence to governance standards, while identifying opportunities to strengthen safety, consistency and care quality across programs.
